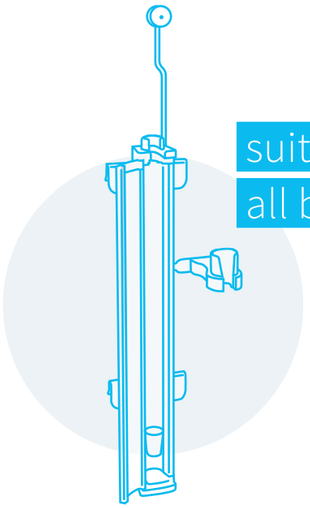
TEE CARE

PROTECTED & SAFE

Transport, storage and reprocessing solution for TEE ultrasound probes

TEE CARE

Technical specifications at provita.de

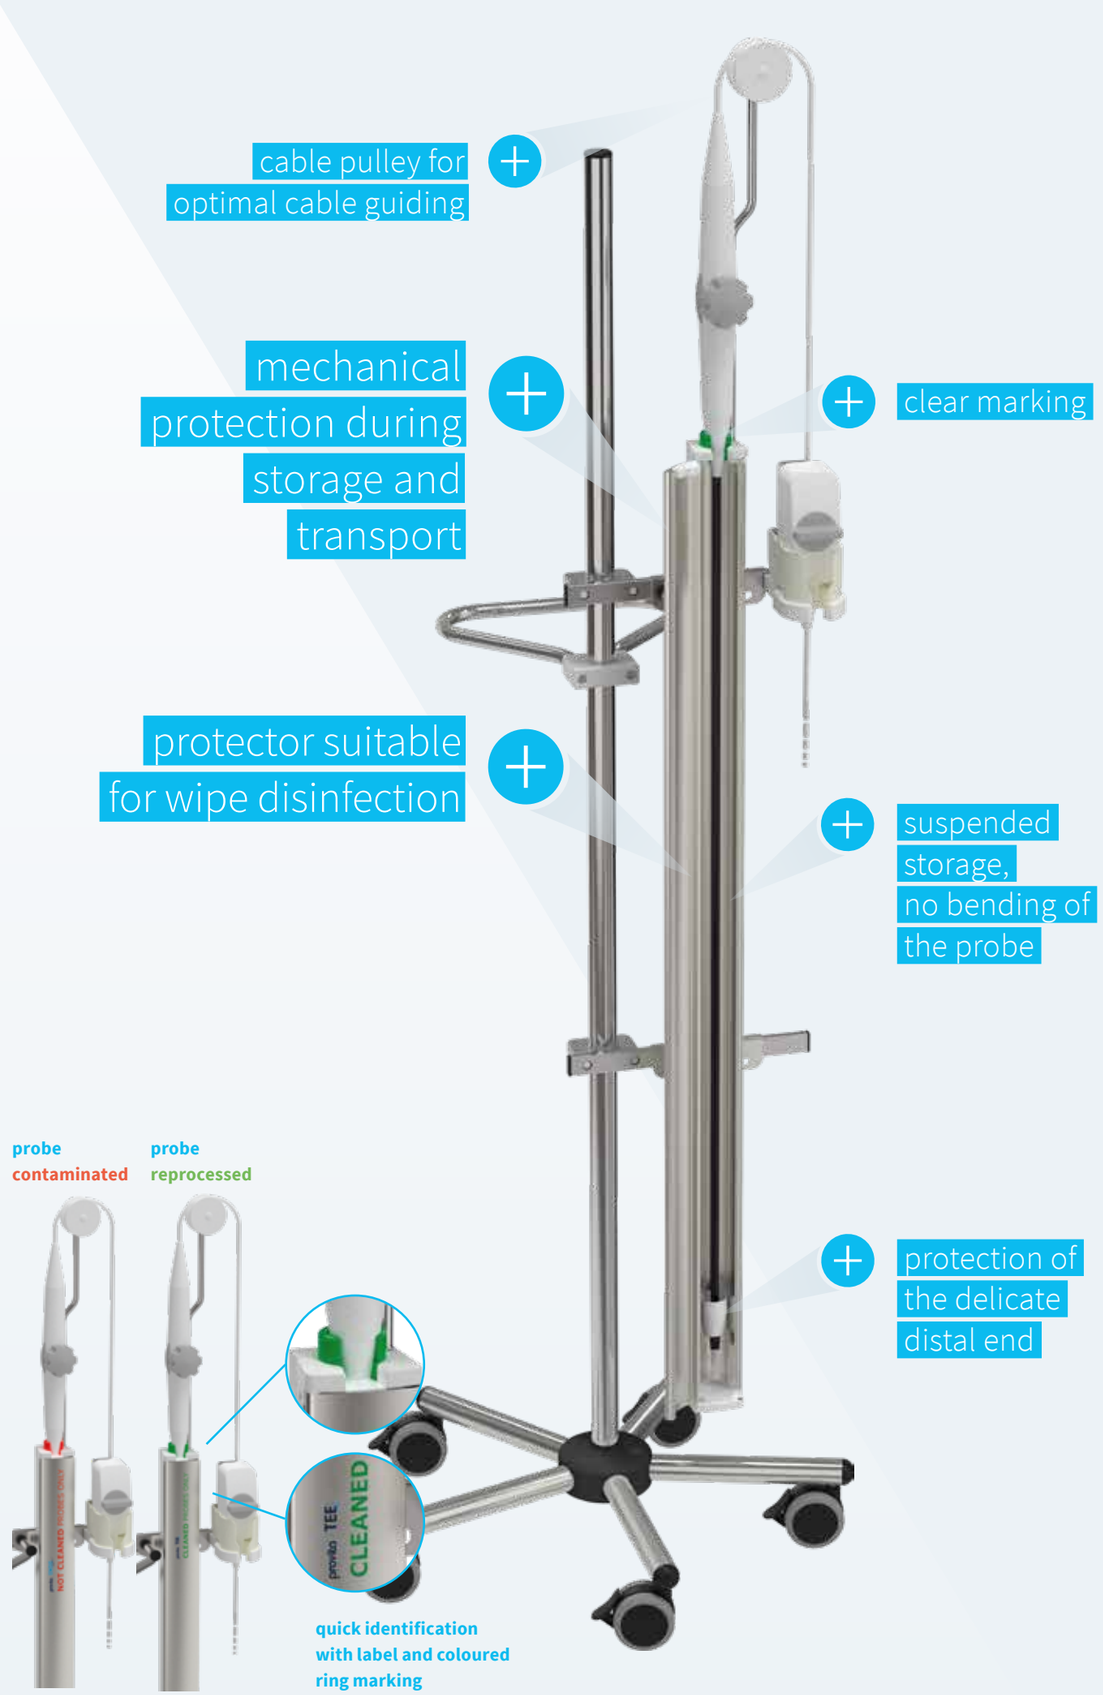


suitable for all brands

- **NO BENDING** thanks to suspended storage
- **MECHANICAL PROTECTION** of the TEE probe: protection against damage and swing guard
- **NO CONTAMINATION** thanks to dust-protected storage
- **CLEAR MARKING** probe reprocessed/contaminated
- **WIPE DISINFECTION** smooth surfaces and good accessibility for wipe disinfection
- **IMMEDIATE AVAILABILITY** of the reprocessed TEE probe
- **CONFIGURABLE** suitable for all probe brands
- **CABLE PULLEY** for optimal & kink-free cable guiding
- Available as a **COMPLETE SYSTEM**, possible protector installation options:
  - » cabinet installation
  - » IV pole*
  - » docking cart
  - » wall rail
- **MDR-COMPLIANT**

* For mobile use, it must be ensured that the unit does not tip over and that it is mounted in a stable position, etc.

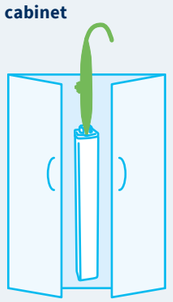
Easy online configuration:
https://configurator.provita.de/tee-care



THE MOBILITY CONCEPT

The protector enables flexible and safe in-hospital transport of a TEE probe from storage to examination. The protector ensures immediate availability of the reprocessed probe on an emergency trolley or IV pole. This allows for a quick response in emergencies.

1 **Reprocessed probe – stored in the protector and stowed away in a cabinet**

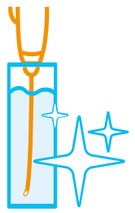


2 **Attaching the protector to the IV pole or emergency trolley**

3 **Examination/diagnosis = probe becomes contaminated**

4

Probe suitable for immersion disinfection



Reprocessing of the probe using immersion disinfection and reprocessing of the protector using wipe disinfection*

1. Cleaning
2. Immersion disinfection
3. Leak test
4. Repeated immersion disinfection
5. Storage in the protector

*required process steps depending on specifications and use

Protector suitable for wipe disinfection

Reprocessing of the probe and protector using wipe disinfection

5 **Storage of the reprocessed protector in a cabinet or again directly on an IV pole / emergency trolley**
