

IV-Stand Premium Care

Heavy duty model with twin castors

I-PRE003

PRODUKTBESCHREIBUNG

Field of application	Intensive Care
Material	Stainless steel/ Plastic
Colour of plastic parts	Black
Number of hooks	4
Arrangement of the hooks	90° to each other
Type of height adjustment	Stainless steel screw height adjustment
Maximum length/height	2.260 mm
Minimum length/height	1.430 mm
Inner tube diameter	Ø 25 mm
Outer tube diameter	Ø 33,7 mm
Length of outer tube	1.200 mm
Base leg profile	Ø 33,7 mm
Base weight	Weighted
Base centre piece	Glasfiber reinforced Polyamide base
Base diameter	Ø 655 mm
Castors	Twin castors
Castor diameter	Ø 75 mm
Number of castors	5 with brakes and elect. conductivity
Total load capacity (kg)	35
Load capacity per system (kg)	20
Load capacity per hook (kg)	5

VERPACKUNGSEINHEIT: UNIT

Breite Box1	0,21 m
Höhe Box1	0,13 m
Länge Box1	1,47 m
Gewicht Box1	12,50 kg

High resilience
up to 35 kg

Pallet unit
up to 30 pieces

Made in
Germany

IV-Stand Premium Care

Anwendung

The outer tube offers enough space to attach various devices at a user-friendly operating height

Technik

- All plastic parts are lightfast
- Stainless steel tubes according to DIN EN 10217-7
- Material ultrasonic and eddy current tested (according to EN 10246-9/3)
- The integrated pull-out limiter prevents the adjustable tubes from separating
- Safety bottle cross according to DIN ISO 15375
- Welded stainless steel castor pins reduce the risk of rusting and improve the mechanical and hygienic conditions
- Reinforced bottle holder allows hanging 5 liters of rinsing solutions
- Increased resistance to corrosion thanks to the base made of glass-fibre reinforced plastic

Ökonomie

Compact packaging allows for low-cost shipping

Sicherheit

- The base legs are sealed with plastic plugs (no risk of injury)
- Low risk of pinching when retracting and extending the IV-pole thanks to the built-in safety distance
- Cylindrical and polished base legs reduce the surface area for dirt and germs to settle
- The Softdrop system dampens and controls the lowering of the inner tube
- No risk of injury thanks to the rounded shape of the bottle hooks
- The geometry of the hooks prevents the infusion bottle from falling out
