

ICS 4 System

with integrated power and network supply

D425000A

PRODUCT DESCRIPTION

Material	Stainless steel
Material support roller	PU
Profile material	aluminium / sheet steel coated
Color	White
Room height	2,500
Total load capacity of the carrier unit	80 kg
Profile size	300 mm x 120 mm
Profile length	2.500 mm
Total load capacity of the rail	100 kg
Weight of rail	appr. 30 kg
Number of support tubes	2
Dimensions of supporting tube	25 mm x 800 mm
Power feed	integrated into the profile
Manageable cables	power and network supply
Rotation angle of carrier unit	appr. 340°
Diameter support rollers	60
Number of support rollers	4
Brake system	integrated into the carrier unit
Position of the brake lever	underneath multi-equipment carrier
Total load capacity (kg)	100

PACKAGING UNIT: UNIT

DIN ISO 15375
Bottle holders according to standards

DIN EN 60601
