IV-Pole Intensive care

Area of application

Comfortable height adjustment via one-hand safety height adjustment

The outer tube offers enough space to attach various devices at a user-friendly operating height

longer outer tube 1.200 mm enables the attachment of pumps in a customer-friendly height display

Economy

Compact packaging allows for low-cost shipping

Safety

The base legs are sealed with plastic plugs (no risk of injury)

Low risk of pinching when retracting and extending the IV-pole thanks to the built-in safety distance

an integrated base-weights facilitates a safer attachment of various pumps and other medical equipment

No risk of injury thanks to the rounded shape of the bottle hooks

The geometry of the hooks prevents the infusion bottle from falling out
